End of Action:	14/05/2018	CSO approval date:	14/11/2013

Objectives

This Action addresses three basic questions that fascinate and intrigue scientists, and the general public alike, questions that are pivotal to our understanding and appreciation of our place in the universe. Where, when and how did life emerge and evolve on Earth What are the conditions under which life can exist Does life exist elsewhere in the Universe and, if it does, how can it be detected and identified
